Position Overview

The Third Shift Plant Operator helps ensure the safe, efficient, and reliable operation of our wastewater treatment facility.

Key Responsibilities

- Monitor plant operations and equipment during assigned shifts.
- Perform routine operational checks and document observations.
- Maintain accurate operating logs and records.
- Make assigned process control adjustments using computerized control panels.
- Communicate operational concerns and updates to appropriate team members.
- Maintain a clean, organized, and safe work environment.
- Follow established operating procedures and safety practices.
- Assist with routine facility and operational tasks.
- Work collaboratively with other UMHJSA departments to support daily Authority operation.

Qualifications & Requirements

- High School Diploma or equivalent.
- Strong math, verbal, and written communication skills.
- Valid driver's license.
- Dependable, motivated, and willing to learn.
- Ability to work the assigned overnight schedule, including some weekends and holidays.

THIRD SHIFT SCHEDULE

11:00 PM – 7:30 AM

Overnight position • Includes some weekends and holidays

Build More Than a Job. Build a Career.

Wastewater treatment is an essential public service that protects our communities and environment.

At UMHJSA, we're proud of our employees and the dedication they've shown throughout decades of service. We offer the opportunity to join an established team, learn a specialized trade, and grow professionally while making a meaningful contribution to the community. We're looking for someone who wants to become part of that tradition!

Ready to Join Our Team?

Applications and resumes may be submitted **in person or online**.
We look forward to hearing from you!
